

Soda Lake bypass

From time to time the Preserve closes the route across Soda Lake when it is muddy or there are impassable conditions, especially after rain. This closure is in place to prevent resource damage. Ignoring the closed sign could also result in an expensive and difficult vehicle recovery. There has been a sign posted on the Mojave Road not far west of Kelbaker Road indicating whether the route is open or not.

Directions coming from the east: Turn right onto Kelbaker Road, mile 85.5. Drive 14 miles to the I-15. West on the I-15 another 12.2 miles to the Rasor Road exit. Cross over the freeway, drive to the left of the gas station and a dirt road will take you back to the Mojave Road in 5.1 miles. Turn right to regain the Mojave Road, mile 104.3

Rasor Road Exit

To the Mojave Road

Reverse the directions coming from the west.
